January 18, 2024

Bedford City Utilities had some customers with low water pressure due to a large main break this evening. Pressure should resume to normal by this time. No Boil Order necessary at this time.

Thank you for your patience as we repaired this leak as well as many others within the last few days. We continue to have smaller water main breaks to repair at this time. If you see a possible leak you can call our office during regular business hours of 7:30 am – 4:15 pm at 812-275-1626 with the exception of 12 pm-1 pm for lunch. If outside normal business hours or lunch, press 6 to be redirected to the on-call employees. If you have called the Filtration plant number of 812-275-7173 you can press option 1 to reach the on call employees.

If you have any questions, please do not hesitate to contact us.
